

RIXONGOTELO NATHANIEL BALOYI

EDUCATION

Vaal University of Technology
2021 – 2023
Computer Systems Engineering
[Average:70%]

SKILLS

- Programming Languages: **C++, C,C#,Python, JAVA**
- **Embedded Systems**
- **Embedded Systems**
- Operating Systems: **Windows, macOS ,Linux, Android, IOS**
- Databases: **MySQL,SQL,mongoDB,SQLite, postgresql**
- Web Development: **HTML, CSS, JavaScript, Flask, Springboot,React,Angular**
- Cloud Computing: **Microsoft Azure, AWS**
- Software Development Lifecycle:[**Requirements analysis, design, coding, testing, debugging**]
- Systems Architecture: [**Hardware components, memory management, performance optimization**]
- Microsoft Office:[**Word, Excel, PowerPoint, Outlook**]
- Problem Solving: **Analytical thinking, innovative solutions, troubleshooting**
- Strong understanding of DevOps principles
- Understanding of Agile methodologies(collaborative, iterative, customer-focused)
- High adaptability.
- Collaborative and effective team member
- Computer literate

Certificates

- CCNAv7: Introduction to Networks
- CCNAv7: Switching, Routing, and Wireless Essentials
- CCNAv7: Enterprise Networking, Security, and Automation

SUMMARY

Passionate Computer Systems Engineering graduate with a strong foundation in software development. Proficient in full-stack development, blending creativity with technical expertise to craft elegant solutions. Adept at leveraging collaborative environments to drive innovation and deliver impactful digital experiences. Dedicated to continuous learning and committed to excellence in every project.
